Word Choice

Usage of Bad Phrases

Bad Phrase Score: 0.27 (lower is better)
The Bad Phrase Score is based on the quality and quantity of trite or inappropriate words, phrases, egregious misspellings, and cliches found in your paper. You did equal or better than **98%** of the people in your education level.

Excellent work! Your phrases scored much higher than average.

Style

Usage of Transitional Phrases

Transitional Words Score: 40
This score is based on quality of transitional phrases used within your paper. You did equal or better than **15%** of the people in your education level.

Your usage of transitional phrases is below average. Please review the writing tips below.

One sign of an excellent writer is the use of transitional phrases (e.g. therefore, consequently, furthermore). Transitional words and phrases contribute to the cohesiveness (http://www.PaperRater.com/vocab_builder/show/cohesiveness) of a text and allow the sentences to flow smoothly. Without transitional phrases, a text will often seem disorganized and will most likely be difficult to understand. When these special words are used, they provide organization within a text and lead to greater understanding and enjoyment on the part of the reader.

The following transitional phrases were found in your document:
and, yet, however, particularly, rather

Consider using additional transitions where appropriate:

- consequently (http://paperrater.com/vocab_builder/show/consequently)
- moreover (http://paperrater.com/vocab_builder/show/moreover)
- nevertheless (http://paperrater.com/vocab_builder/show/nevertheless)
- notwithstanding (http://paperrater.com/vocab_builder/show/notwithstanding)
- accordingly (http://paperrater.com/vocab_builder/show/accordingly)
- conversely (http://paperrater.com/vocab_builder/show/conversely)
- ordinarily (http://paperrater.com/vocab_builder/show/ordinarily)

Transitional phrases may be used in various places in a text:
- between paragraphs
- between sentences
- between sentence parts
- within sentence parts

Consider this example:
Form and function are central themes in Biology. **However**, knowing the structure of something does not necessarily reveal its function.

The word **'however'** contributes to greater unity or cohesion between sentences and allows the text to flow more smoothly.

Sentence Length Info

Total Sentences: 139
Avg. Length: 14.6 words
Short Sentences (< 17 words): 90 (65%)
Long Sentences (> 35 words): 6 (4%)
Sentence Variation: 11.0 words (std deviation)

Your paper seems to be lacking in complex sentences (http://blog.paperrater.com/2015/05/effective-use-of-sentence-length.html) , due to overuse of shorter sentences.

Sentence Beginnings

Simple Sentence Starts: 8%
You did equal or better than **77%** of the people in your education level.

Nice work! The variety and complexity of your sentence starts is above average.

Variety is the hallmark (http://www.PaperRater.com/vocab_builder/show/hallmark) of a good writer and this is especially true in regards to sentence starts. Creatively arranging sentence beginnings breaks up the monotony (http://www.PaperRater.com/vocab_builder/show/monotony) and choppy style associated with a simple noun phrase followed by a verb. This does NOT mean that all sentences should begin with prepositional phrases, transitions, or adverbial phrases, but it does mean that you should be certain to pay attention to sentence starts and deliberately edit for variety if necessary.
Here are some simple sentence starts that we found in your text:

- **Interview Simulation System using** Gemini...
- **Experimental evaluation demonstrates** the...
- **Artificial Intelligence has** transformed...
- **Whisper provides** state-of-the-art...
- **Several AI-assisted platforms have** been...
- **Candidates preparing** for...
- **Follow-up questions are** generated...
- **Audio is** sampled...
- **Streamlit application serves** as...
- **External API calls** to...
- **Special thanks are** extended...

Grade

Auto Grader

Grade: 81 B

The grade above is NOT complete! We do not actually use a crystal ball to generate your grade. Instead, this grade takes into account spelling, grammar, word choice, style, vocabulary, and more; but it does NOT examine the *meaning* of your words, how your ideas are structured, or how well your arguments are supported. We should also mention that our automated grader doesn't **always** get things right. So, please consider this grade to be one facet of your paper's overall grade.
